Các chuỗi hạt phải được đeo với sự giám sát đúng cách để tránh khả năng bị mắc nghẹn hoặc nghẹt cổ. Trẻ em không được đeo chuỗi hạt trên giường, trong lúc chơi đùa, trong lúc ngủ hoặc khi các em đang dưới ảnh hưởng của thuốc an thần. Chúng tôi khuyên rằng đối với trẻ em dưới 5 tuổi, cha mẹ nên thay mặt các em để khâu thêu và đeo chuỗi hạt cổ.

Chỉ dẫn cách chùi rửa

Thỉnh thoảng nên lau chùi chuỗi hạt với dung dịch xà phòng ấm để giữ gìn vệ sinh tổng quát.

Bravery Bead Index

Each bead gives meaning to every day & every event.

To reward children with cancer for the immense courage they need to undergo treatments, Cure Our Kids has come up with an innovative concept - **Bravery Beads**.

How does the Bead Program Work?

When your child is first admitted to the Oncology ward at the Children's Hospital at Westmead, she or he will be given a beautiful handmade carry bag containing a set of beads spelling their name.

This carry bag will also contain:

- 1 x length of coloured waxed cord
- 1 x threading needle
- Several blank beads
- A very special sterling silver "bead of bravery" (to be signed by the parent/guardian)
- 1 x indemnity form

Happy Holidays

Each time your child undergoes a treatment, she or he will be given a prescription* for an amulet to add to their set of beads.

So, as treatments continue, your child will gain an increasingly decorative set of beads representing all of the courageous steps they've taken - which can be displayed with pride.

* Prescriptions for amulets can be redeemed from Donna or Debbie at the Oncology Treatment Clinic reception.

The Benefits of Bravery Beads.

- Bravery Beads help children to feel proud of their triumphs over cancer.
- The colourful beads act as symbols to help children tell their stories.
- Boys and girls benefit equally from the Bravery Beads, which can be used as a bookmark, jewellery or simply as a decoration.
- Promise of receiving a reward gives children something to look forward to as their treatments continue.
